

MY CLEVELAND HISTORY

Bringing the past to life!

Genealogical and historical research
myclevelandhistory.com

We solve family mysteries and provide depth and context to your family history. We tell the story of how they lived, what they did and how they had fun.

Cleveland's past is interwoven with the lives of your ancestors. We'll meticulously trace your roots through archives, cemeteries, libraries, historical societies, landmarks and hundreds of online resources to uncover the stories of your ancestors' contributions to Cleveland's rich tapestry.

Transforming into Timeless Legacies

Beyond uncovering your family's history, we offer a unique opportunity to transform the wealth of information into tangible and lasting legacies. Our creative services extend beyond the research phase, allowing you to showcase your family's narrative in visually stunning and meaningful ways.

Preserving Memories: Capture the essence of your family's story in visually appealing formats that can be passed down through generations.

Shareable Treasures: Create shareable gifts that strengthen family bonds such as photo books, calendars, or custom-designed family trees.

Unique Personalization: Each creative output is uniquely tailored to your family's story, ensuring a one-of-a-kind representation of your heritage.

Breaking Down Brick Walls	Overcome genealogical challenges with our specialized services. Whether you've hit a dead end or need assistance navigating complex research, we're here to provide innovative solutions.	Variable: Free with the purchase of three or more services

MY CLEVELAND HISTORY

Customer Reviews

Your hard work and attention to detail have helped to uncover valuable information about my grandfather's history. Your contributions are invaluable and have helped to trace my grandfather's life journey much further than I was able to do on my own. I am truly grateful for all that you have done.--- Dennis J.

*Tom was able to do extensive research on my family from throughout the 1800s. The research information came from records searched out such as land records, property tax rolls, church history, local history books, census records, newspapers, and vital records. There were many details I learned about my family in the 1800s that I never knew were out there. I thoroughly enjoyed reading the family biographies and the newspaper snippets of marriage announcements. Most importantly on my research list was a missing marriage record from the 1880s.
---Jerry A*

I can truly say Tom went above and beyond what I expected. He was able to trace our family's history (on both sides) to the mid 1700's, and he would have gone even farther back if I didn't stop him!

What impressed me the most was that Tom didn't just map out a family tree, but he was able to bring back wonderful memories of our family through old newspaper articles, property records, marriage licenses, and old neighborhood photos. He was able to present our family history as something living and breathing for our children to enjoy. The quality of his work was outstanding. Tom was able to provide us a gorgeous canvas and wood framed family tree to give to our children.---Greg K

Tom did an amazing job of tracing my family history. His diligence and attention to detail is evident throughout the project. He gave a Life Story about my relatives with interesting facts I never knew. Tom provided many pictures, marriage certificates, death certificates, draft registrations, census records, and wills among other documentation. To say I am more than pleased would be an understatement.---Mark F
